Retire as permanent.

NOTES

- 7 Transfer to the National Archives in 5-year increments when 25 years old.
- 86 Retain as current records until the publication is rescinded, superseded, or obsolete. (Superseded means that the publication has been replaced by one bearing either the same or a different number and subject. Reprints, including those incorporating changes since issuance of the basic, are not considered superseding publications.) Then remove from the active file, place in an inactive file which will be cutoff 31 December each year, and retire or dispose of as indicated. Background material is retained by HQ USAF OPRs until the related publication is rescinded, superseded, or obsolete, and then retired with the record set to WNRC 2 years after annual cutoff. Field OPRs retain background material for standard publications dated before 1 Jan 68, and retire it when the related publication is rescinded, superseded, or obsolete. Field OPRs send background material for standard publications dated 1 Jan 68 to the publications management office for retention and retirement, except for digest, bulletins, and operating instructions (other than HOIs).

NOTES

- 21 Electronic copies created using electronic mail and word processing: Destroy paper after recordkeeping copy has been created and filed or when no longer needed for revision, dissemination, or reference, whichever is later.
- 21 Electronic systems that replace temporary hard copy records:
Destroy on expiration of the retention period previously approved for the corresponding hard copy records.
- 21 Electronic systems that supplement temporary hard copy records where the hard copy records are retained to meet recordkeeping requirements: Destroy when the agency determines that the electronic records are superseded, obsolete, or no longer needed for administrative, legal, audit, or other operational purposes.
- 49 HQ USAF OPRs file and retain a duplicate copy of AF Form 673, Request for Issuances of Publication, with related record set and background material. SAF/AAD retires the original AF Form 673. Below HQ USAF level, the original AF Form 673 is filed and retained with the record set of publications.
- 49 Air Force Department publications prepared by a MAJCOM/FOA are retired as HQ USAF record sets. Responsibility for maintaining the record sets, including all essential background material, is as agreed upon between the HQ USAF OPR and the preparing command. When retiring the record set, the HQ USAF OPR is shown in Item 5 (FROM block) of the SF 135, and "341" is shown as the Record Group in Item 6a. An accession number is obtained from the HQ USAF OPR Staff Records Manager and entered in Item 6c of the SF 135, per AFI 37-138 (to become AFMAN 33-322V3), paragraph 6.9 and figure 6.3. Show the preparing activity (MAJCOM/FOA and office) in Item 6f of the SF 135.
- 49 Air Force activities designated as Executive Agent for DOD publications will be responsible for creation, maintenance, and retirement of the publication and all records pertaining to it.
- 49 If the record set of a publication is in microform, then the microfilm of the record set must meet all archival standards and specifications. Otherwise, a durable paper copy must be created to satisfy the permanent retention requirements. Viewer/printer copies are not authorized for this purpose. Approval to use archival microform must be granted by AF/SCTIR.
