

DAF Coaching Culture Facilitator Course (CCFC) Feedback

"I found the CCFC material and experience to be extremely valuable, pertinent, and effective in preparing me to serve as a DAF coach."

"Helping other service members work through challenges in a non-traditional way has been very rewarding. I am engaging with leaders differently and providing leadership development that has not historically been provided."

"It has made me a better leader, friend, and parent which overall makes me a better person."

"My clients have told me that the "facilitated reflection" experience that I provide in our coaching sessions has left them feeling more empowered and confident in the performance of their job and professional interactions. I have observed them move from a "fight or flight " mindset to a more open, positive, and creative one -- which enables them to develop creative solutions to the challenges they face. Their strengthened and innovative engagement benefits the entire DAF mission."

"This was the best learning experience I've had since I've been associated with the military. Flatter runs an amazing course that allows participants to learn but also to grow as individuals."

"It has been a fantastic course for self-discovery, self-improvement, and self-awareness."
